

Control module	
Input (for phase monitoring)	AC 230V / pot free power control
Current drain	11mA
Power	2.5VA
Max device/panel	32 pcs (uniquely addressed)
Closing resistor (active with jumper)	For closing the RS485 line on the last AC control
Connection (to panel)	RS485
RS bus max distance	1200m (without repeat)
Cable	Should use twisted pair cabling
Battery (powering the device)	6V 80mAh
